### HOW TO MEASURE YOUR RING SIZE

---

Method 1: Measure your finger

- Using a length string or ribbon, wrap it around the base of your finger. Choose a size that will slide on and off your finger easily.
- With a pen, mark the point of the string where the ends meet.
- Measure the string in millimeters with a ruler.
- Choose the closest measurements to the chart below.
- We also advise to take the size of your knuckle

### Tips

- The string or ribbon must fit comfortably to produce an accurate size reading.
- Finger size can change depending on the time of day and weather; for the most accurate measurement, measure your finger at different times of the day, and on different days to provide comparisons.
- Avoid measuring your fingers when they are cold or wet, as they will be at their smallest.

### Method 2: Measure the Ring

The size of rings may vary depending on the style of the ring. Therefore, if you would like to measure the size using a ring, choose a ring with a similar width as the ring you would like to purchase (but no wider than 3mm), and use the sizing guide below.

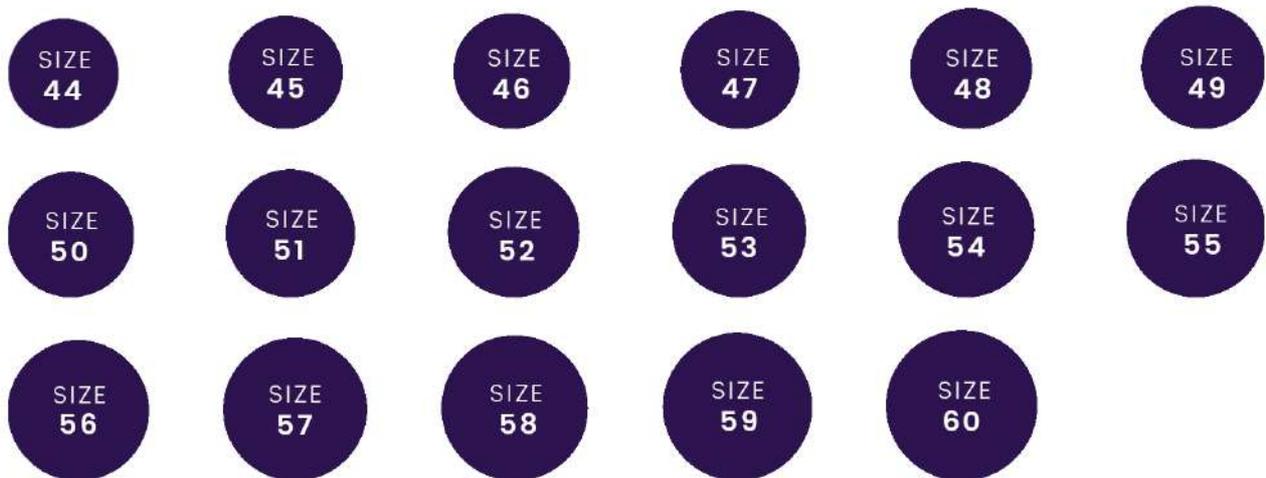

- Position the ring over the circles shown below to determine which one matches your size.
- The diameter should correspond exactly with the diameter of your ring.
- Please note for your order that Maison Mirath uses European sizing as indicated below.
- If you hesitate between 2 sizes, Maison Mirath advises to choose the larger one.
